CHAPTER 16
GARBAGE, REFUSE AND OTHER SOLID WASTES

Art. I. In General, §§ 16-1--16 13
Art. II. Collection Licenses, §§ 16-26--16-45
Art. III. Disposal Sites, §§ 16-46--16-55
Art. IV. Recycling and Waste Management, §§ 16-56—16-58

ARTICLE II . COLLECTION LICENSES
1-13-97 17

Sec. 16-33. Volume-based rates.

Each garbage hauler licensed under this section shall provide to its residential customers a system of volume-based rates. A volume-based rate includes a solid waste collection charge and a disposal charge based on the volume of the solid waste. There shall be a minimum of three (3) categories for the volume of garbage and for the rate of collection, the least amount of volume for which shall be thirty (30) gallons. That part of the price for service based on the disposal charge shall be proportionately different for the three volumes of waste collection service. Further, each hauler shall provide services for amounts less than thirty (30) gallons at a price below what it charges for collection and disposal services for thirty-gallon volumes. Each licensed refuse collector shall file all residential customer rates effective for the following year with the City Clerk. The filing shall be on a form approved by the City and shall be amended by the licensee from time to time as the rates are changed. The amended filing shall be within two weeks of any change.

“Environmental Fee” Fine Print - Hauler #1

“The environmental fee is designed to recover a portion of the total annualized costs associated with our environmental compliance program which includes by way of example, compliance with vehicle emission standards, landfill development, facility monitoring and environmental compliance testing costs...

“The amount or percentage of the environmental fee is not tied to any specific, direct or indirect costs to service your account, but to [the hauler's]’s overall cost of environmental compliance.”

“Environmental Fee” Fine Print - Hauler #2

"The environmental fee assessed to a customer is not tied to the specific increased environmental safety and compliance costs to service such customer, but to all environmentally-related costs to service all [our] customers on a nation-wide basis. These expenses include, but are not limited to, environmental permitting/testing, engineering and maintenance to maximize the recoverability of processed material, and the safe, environmentally responsible operation of all [our] facilities."

"The Fuel Surcharge and Environmental Fee are not taxes or surcharges imposed by or remitted to any governmental or regulatory agency; it is our charge. The Fuel Surcharge and Environmental Fee may be changed at the discretion of [the hauler]."

“Environmental Fee” Fine Print - Hauler #3

"The Fuel/Environmental Recovery Fee is not a tax, surcharge, or fee mandated/imposed by or remitted to any governmental or regulatory agency."

and

“This fee recovers costs incurred on a nationwide basis associated with operating our facilities (collection, transfer, landfill, material recovery, and landfill gas-to-energy) in an environmentally safe manner, and is designed to achieve an acceptable operating margin.”
